## Professional Bio

Susan Sawasy ASID, CID, has been practicing interior design in Los Angeles and Pasadena since graduating from UCLA in the early 80's. Prior to establishing her own company Susan worked in the downtown Los Angeles industry for an architectural firm as Interior designer/project manager. This experience provided her with the background in design, drawing, construction and project management that she applies to her work today. Projects included corporate offices, law firms and international banks.

Since 2002 her primary professional focus has been on residential work. Her design firm CASAWASY is located in South Pasadena where she has had the opportunity to work on a wide range of architectural and interior styles. We have had the opportunity to work on a number of Showcase Homes both in Pasadena and the Hancock Park area in Los Angeles.

We work closely with the Architect (if one is on board) and the contractor to insure our Clients interests are represented well. We can never over emphasize the need for a comprehensive contract, complete construction documents, timely follow up on conference reports and always, open communication between ourselves and our Clients.

## Design Philosophy

I am always being asked to describe "my look". When asked by a potential Client I might hesitate to explain my preference for clean contemporary rooms with a careful study in high contrasts and minimal use of pattern. What if the project at hand were to be a restoration of an Italian Mediterranean or a Traditional Craftsman? Will the Client see that I can "do that"? Fortunately, for the most part they do.
